

I'm concerned about the possible ruling that will effect K-LOVE. Since I moved to San Diego I have listened to K-LOVE and have been encouraged by it's possitive message and music. If the LPFM is allowed to displace K-LOVE it will have a devistating effect on the local community. If K-LOVE were to be displaced by an LPFM broadcaster it will take away the only station that provides the public with positive and encouraging music. I feel that the serviced provided by K-LOVE is something that must be preserved. It is vital the the health of the community. It provides an encouraging message that up lifts the hearts and attitudes of the people in the community.
